Management Discussion and Analysis

1. Economic Environment & Rice Industry:

The Financial Year 2016-17 witnessed two major policy developments with one paving the way for the implementation of transformational Goods and Service Tax (GST) and the other action packed move to demonetise the two highest denominations notes. The GST is expected to create a big boost to the Indian Market and also a bold experiment to improve tax compliance and governance.

The GST is also expected to boost the twin objectives of investment and growth in the Indian Economy. Though demonetisation has an impact on the common man it holds the potential for long term benefits to the nation, greater digitalisation of the economy, increased flows of financial savings and greater formalisation of the economy, all of which could eventually lead to higher GDP growth, better tax compliance and greater tax revenues.

The Real GDP growth in the first half of the year was 7.2 percent, on the weaker side of the 7.0-7.75 per cent projection in the Economic survey 2015-16 and somewhat lower than the 7.6 percent rate recorded in the second half of 2015-16. The main problem was fixed investment, which declined sharply as stressed balance sheets in the corporate sector continued to take a toll on firms' spending plans. On the positive side, the economy was buoyed by government consumption, as the 7th Pay Commission salary recommendation were implemented, and by the long awaited start of an export recovery as demand in advanced countries began to accelerate.

However the external position appears robust having successfully weathered the sizeable redemption of Foreign Currency Non-Resident (FCNR) deposits in late 2016, and the volatility associated with the US election and demonetisation. The trade deficit declined by 23.5 percent in April-December 2016 over corresponding period of previous years.

India's export appear to be recovering, based on uptick in global economic activity. The IMF's January update of its World Economic Outlook forecast is projecting an increase in global growth from 3.1 percent in 2016 to 3.4 percent in 2017, with a corresponding increase in growth for advanced economies from 1.6 percent to 1.9 percent.

As per economic survey 2016-2017, growth of agriculture & allied sectors improved significantly in 2016-17, following the normal monsoon in the current year which was preceded by sub-par monsoon rainfall in 2014-15 and 2015-16. During the South West Monsoon Season (June to September) of 2016 the Country as a whole received rainfall which was 97 percent of its long period average (LPA). However growth in industrial sector, comprising mining & quarrying, manufacturing, electricity, gas and water supply and construction sectors moderated in 2016-17. This is in tandem with the moderation in manufacturing, mostly on account of a steep contraction in capital goods and consumer non durable segments.

Rupee closed the FY 2016-17 at Rs. 64.86 per USD as against previous fiscal close at Rs. 66.30 per USD.

A moderate recovery is likely to shape up in Indian Economy in 2017-2018 with progressive implementation of some of the reforms which includes Make in India campaign, Digital India, Demonetisation, GST Tax reforms, Start up India, FDI, focus towards rural jobs, Mahatma Gandhi National Rural Employment Guarantee, faster implementation of projects and infrastructural development. Actually India is headed to continue being the fastest growing major economies in the world. International Monetary Fund projects the country to grow 7.2% in FY 2017-18, while gaining momentum and growing by 7.7% in FY 2018-19.

2. Agriculture Sector in India

The agriculture and its allied sectors plays a vital role in India's economy. The sector provides employment to nearly 58 % of the country's population and its principal means of livelihood. Agriculture, along with fisheries and forestry, is one of the largest contributors to the Gross Domestic Product (GDP). It forms the basis of many premier industries in India, including the textile, jute and sugar industries. Agricultural export constitutes 10 per cent of the country's exports and is the fourth-largest exported principal commodity. FICC expects the Indian Agriculture Sector to grow 3.5% in 2017-2018.

Output Global Rice industry:-

The year 2016 turned out to be a record year for paddy production post two years of poor outcome which was marked with El Nino Weather anomaly. With favourable weather conditions, the paddy producers, especially the ones in the northern hemisphere, were able to reclaim lands for paddy cultivation leading to expansion of area under cultivation by 2.7 million hectares. As a result, paddy production in Asia, led by strong growth in India and Thailand, reached record levels of 680.1 MMT, grown by 1.6% in 2016-17. As per FAO data global rice production is expected to reach 758.9 Million tonnes (503.8 MMT on milled basis), however in the year 2016-17 global rice utilisation is estimated to have reached 500.3 MMT.

INDIAN RICE OVERVIEW

India is the second largest rice producing country of the world :-

Rice is the most important food crop in India contributing to more than 40 percent of total food grain production and cultivated/consumed across the country. India is among the leading rice producers in the world. Rice is predominantly a rainfed crop planted in the kharif season after the onset south-west monsoon rains during June through August. India is the second largest producer and exporter of rice in the world. Throughout history as per the Archeological evidence rice has been one of man's most important foods for more than 5000 years. Today, this unique grain helps sustain two-thirds of the world's population.

The major rice growing area in India are West Bengal, Uttar Pradesh, Madhya Pradesh, Orissa, Bihar, Andhra Pradesh, Assam, Tamil Nadu, Punjab, Maharashtra, Karnataka, Haryana, Gujarat, Kerala, Jammu- Kashmir, Tripura, Meghalaya, Manipur, Rajasthan, Nagaland, Arunachal Pradesh, Himachal Pradesh, Mizoram, Goa, Pondicherry, Sikkim, A & N Island and D & N Haveli.

Through a combination of increasing the area under cultivation and increasing cropping intensity today India is self reliant in Rice. Adoption of modern Varieties, rice production exceeded every year from its previous year since 1988. India is the leading exporter of the Basmati Rice to the global market and some of the countries to which India exports rice are Iran, Saudi Arabia, UAE, Senegal and South Africa. In 2016-17, India accounted for nearly 23% of the total global rice production of 500MMT.

The rice production during the year 2016-17 is expected to reach records level of 109.15 MMT as per 3rd advanced estimated of food grains production for 2016-17. Supply in the domestic market is adequate due to excessive production which export prices are lower than other country export's prices

India is largest exporter of rice for fifth year in a row in 2016-17. However the growth rate of exports was lower in 2016-17.

The Indian Basmati rice is amongst the most renowned rice variants globally. It has witnessed growing demand from the domestic market for past few years. In 2016-17, the Basmati Rice Production is likely to decline by over 18% from 9.8MMT in 2015-16 to 8MMT driven by a sharp decline in acreage. However in the year 2016-17, 102.72 million tones rice is available for the domestic consumption.

The international demand, though has remained weak for the last two years, resulting declined in exports of Basmati Rice from 4.04 MMT in 2015-16 to 4.00 MMT in 2016-17. It is expected to witness some uptick from this year onwards on Iran, the largest importer, coming back on procurement from India again.

Basmati rice exports to Iran have started since January–March quarter. The industry expects Iran to purchase at least 1 million tonnes this financial year.

“The Chinese government has identified 14 Indian firms to export basmati rice to that country. Despite the taste being different for consumers, there has been a growing appetite for Indian basmati rice in China. We expect direct export to China to begin very shortly.

This year, prices of basmati rice have jumped by 50 per cent on the shortage of supply resulting into a proportionate jump in farmers' income. So, farmers would be encouraged to bring in more area to fetch better realisation this year.

The basmati rice industry has witnessed moderation over the last few years on the back of subdued international demand, partly attributable to the delay in resumption of imports by Iran. However, FY17 has seen some stabilisation in demand.

After declining considerably during the procurement season in FY16, Basmati paddy prices have firmed up by 20-25 per cent across various varieties, primarily due to relatively lower production, in the recent procurement season (October–December 2016). This is likely to push up basmati rice prices in the next financial year.

In addition to this, with the firming up of paddy prices the average realisations are likely to increase which in turn shall boost revenues. In 2017-18, the exports is likely to be around 4.09MMT in volume terms and Rs. 22000-22500 Crores in value terms.

On the other hand during the year 2016-17, 68.13 lakh tons of non Basmati rice has been exported from the country. It is expected if exports increases by 5% during 2017-18, then it will easily cross 71 lakh tons.

Strength & Opportunities

- 1 The Company has developed a Novel and innovative process which involves recycling of most of the hot water used for soaking of paddy during parboiling of rice , thereby generating little waste water and still having a high quality product .
- 2 The Promotion of flagship brand Maharani is on the Top agenda of the company in the time to come .Company has introduced very attractive and novel packaging's of Maharani Brand. The Company plans to go for aggressive advertising in print and electronic media and brand equity is likely to be future strength and business stimulators of the company .
- 3 The Company has explored new International markets and it is continued pursuit of Management to find new markets world around and also winning the confidence of the existing customers.
- 4 The company is also concentrating on new domestic centres through brand promotion, advertising and offering lucrative packaging of quality product at competitive prices.
- 5 The company's novel and innovative products viz ; Bhatti Sella, Pesticide Residue free rice and quick cooking rice and Rice for Diabetic People having moderate G.I Sale is picking up in various directions of the World markets particularly the Maharani Rice suitable for Diabetic people. This rice has added qualities like taste, aroma, easy cooking and longer preservation period.
- 6 The Executive director of the Company Sh. Vijay Setia who is President of All India Rice Exporters Association of India has been engaged by an International Company namely M/s Gerson Lehrman Group as a consultant in the field of Food Technology for having so in depth knowledge of the subject that he is being paid for that worldwide. This is a major achievement which can be highly instrumental to the growth of the company in the time to come .
7. Given the rising population, increasing income levels, increasing consumption of rice globally, perception of consumer about food, quality consciousness, brand value, changing lifestyles, health consciousness etc. further strengthens its opportunities.

Threats

Under performance of world economy specially USA and UK, global recession and lower monsoon, new norms for import, Higher import duty in some countries, lower growth in Agricultural sector, lower share of agricultural sector in the real GDP frequent change in govt.policy, unfavourable weather conditions, sudden fluctuation in exchange rates may pose a threats to company's business profitability. This risk can be mitigated largely due to the concept that Food Industry has lesser elasticity of demand as compared to the other products. Further the business wisdom and technological aspirations inherent in the management team can be quiet helpful to overcome such difficulties.

Risks and Concerns

In a business environment Risk management becomes a top priority and your Company has put in place a robust risk management framework for identification, appraisal and management of various risks on a timely manner.

As the company is mainly dependent upon Agriculture which totally depends upon the quality of rains in India, the poor and untimely rainfall can adversely affect the costing of the Company and consequent price realisation. But the Company has developed its procurement market throughout India and if in any region the rainfall is lesser the Company can buy its raw material from the another region.

The unprecedented nature of Rice Industry and volatile prices are areas of concern for which the company's focus is to make cost of production internationally competitive and reduce interest cost by more & more utilising its own resources and cutting other cost through technological up gradation and computerisation of company's operations.

The protectionist measures or non tariff barriers by other countries may hit or reduce the exports. However the company's focus is also on the domestic market. As a major portion of revenue coming from exports, volatility in exchange rates can affect Company's business. However Company has well defined planning and taking necessary steps for hedging against such outcomes. The global and domestic rice markets are witnessing cut throat competition in the market. However Company is successfully mitigating this risk viz attractive packaging, branding & standardization of quality of rice, creating of new markets overseas, handsome profit, innovative Ideas of management to produce better quality product and focusing to new International markets.

INTERNAL CONTROL SYSTEMS, RISK MANAGEMENT AND THEIR ADEQUACY:

The company continued to lay emphasis on strengthening and improving internal supervision and control. The Company has a proper and adequate system of Internal controls to provide reachable assurance that all assets are safeguarded and protected against loss from unauthorized use or disposition, and that transaction are authorized, recorded and reported correctly. The internal control system provides for well-documented policies, guidelines authorization and approval procedures. Management information system (MIS) is the backbone of your company's control mechanism. Well-conceived annual planning and effective budgetary control ensures adequate control on all the expenditures of the company.

An extensive programme of Internal Audit by the internal audit department and periodic review by the Management further supplement the Company's internal control systems. In the line with the International trend, planning and conduct of internal audit is oriented towards review of control in the management of risks and opportunity in the Company's activity.

The Internal Controls and Risk Management systems are duly checked for their adequacy by carrying out regular and exhaustive internal audits. Internal Auditor carry out the internal audit of the Company's various divisions. The Internal Auditors report significant audit observations, periodically at regular intervals to the Audit Committee that comprises of three independent Directors. The Committee met regularly during the financial year and reviewed internal audit plan, audit observation and followed up implementation of corrective actions and covers all significant areas of Company's operations. The Audit committee also met the company's Statutory Auditors to ascertain their views on the adequacy of Internal Control System in the Company.

FINANCIAL PERFORMANCE:

During the year the Sales of the Company increased at a handsome rate. The Sales of the Company touched Rs. 49282.36 lakhs in 2016-17 from Rs 48245.53 lacs in 2015-16. ANNEXURE B TO THE INDEPENDENT AUDITORS' REPORT – 31 MARCH, 2017

(Refer to in our report of even date)

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of Chaman Lal Setia Exports Ltd. ("the Company") as of 31st March, 2017 in conjunction with our audit of the financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India ('ICAI'). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and

detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013 ("the Act").

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing, as specified under section 143 (10) of the Companies Act, 2013 issued by ICAI and deemed to be prescribed under Section 143(10) of the Act, to the extent applicable, to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and both issued by the Institute of Chartered Accountant of India. Those Standards and the Guidance Note Require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditors' judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls Over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the Company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control

over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31 March 2017, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the ICAI.

Your Company's diverse product line covers product like Sella Rice, Bhatti Sella, Rice for Diabetic peoples ,Smoked rice, Pesticide Residue free rice. Company's uses its strong relationship with Domestic and Global Business partners for market penetration and presence. Company has introduced newer policies and strategies to facilitate development further.

B) Statements of significant accounting policies:

1. Basis of Preparation of Financial Statements

The financial statements have been prepared on accrual basis under the historical cost convention and to comply in all material aspects with Generally Accepted Accounting Principles in India to the extent applicable including the applicable Accounting Standards as prescribed and notified by the Companies Act, 2013 read with rules made thereunder.

2. Use of Estimates and Judgments

The preparation of the financial statements are in conformity with the applicable Accounting Standards which requires management to make estimates and the assumption that affect the reported amount of assets and liabilities and disclosures relating to the contingent liabilities as on date of balance sheet and the reported amount of revenues and expenditure during the reported period. The estimates and assumptions used in the financial statements are based upon management's best evaluation of the statements. Examples of such estimates include useful life of fixed assets, creation of deferred tax asset, lease rentals and write off of deferred revenue expenditure. Difference, if any, between the actual and the estimate is recognised in the year in which the same are acknowledged/ materialized.

3. Revenue Recognition

The Company follows the mercantile system of accounting and recognizes the income and expenditure on accrual basis except in case of significant uncertainties. Certain items of income such as insurance claim, market fees refund, Service Tax Refunds ,Interest Subventions , overdue interest from customers etc have been considered on Payment Basis/receipt basis to the extent the amount is accepted by the parties. The principles of the revenue recognition are given below

Sales are recognized as follows

Domestic Sales-At the point of dispatches to customers.

Export Sales - At the time of issue of bill of lading

Sales are recorded net of sales returns, price differences and sales tax. Sale of license and duty draw back are recognized on realization basis.

4. Fixed Assets

Fixed Assets are stated as per Schedule II of Companies Act, 2013. Fixed Assets are stated at cost (of acquisition/ construction, as the case may be), net of CENVAT and Subsidy, less accumulated depreciation and accumulated impairment losses, if any.

5. Depreciation/Amortisation

Depreciation is provided on written down value basis at rates provided in Schedule II to the Companies Act,2013 and is systematically allocated over the useful life of an asset as specified in part C of schedule II of Companies Act, 2013.

Depreciation on plant & Machinery has been provided on the basis of shifts worked in the case of both the units. Cost of leasehold land is amortized over the period of lease.

6. Capital work in Progress

Capital work in progress comprises cost of fixed assets not yet commissioned, incidental preoperative expenses and borrowing costs, if any.

7. Leases

In respect of operating lease, lease rentals are accounted on accrual basis in accordance with the respective lease agreements. However there is no lease as on the date .

8. Government Grants
