Disclaimer

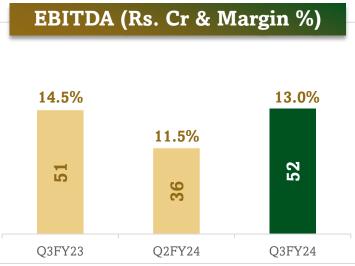

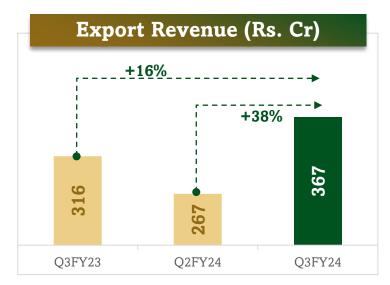

Any forward-looking statements about expected future events, financial and operating results of the Company are based on certain assumptions which the Company does not guarantee the fulfilment of. These statements are subject to risks and uncertainties. Actual results might differ substantially or materially from those expressed or implied. Important developments that could affect the Company's operations include a downtrend in the industry, global or domestic or both, significant changes in political and economic environment in India or key markets abroad, tax laws, litigation, labour relations, exchange rate fluctuations, technological changes, investment and business income, cash flow projections, interest, other costs, etc. The Company does not undertake any obligation to update forward-looking statements to reflect events or circumstances after the date thereof.

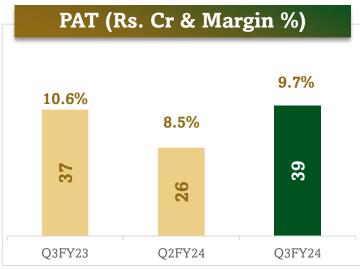

Q3 FY24 Highlights: CLSEL records highest ever quarterly profits

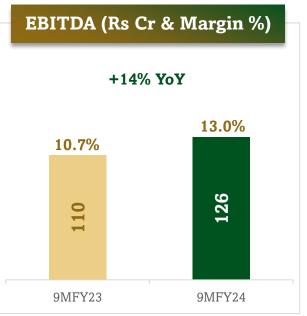

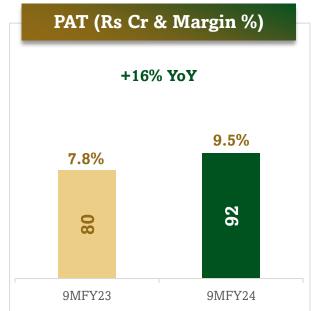

- Revenue up by 30% QoQ and 13% YoY, led by higher exports with increased penetration in APAC, Middle East and Africa
- □ Company recorded highest ever quarterly profits, with EBITDA of Rs. 52 Cr and PAT of Rs. 39 Cr

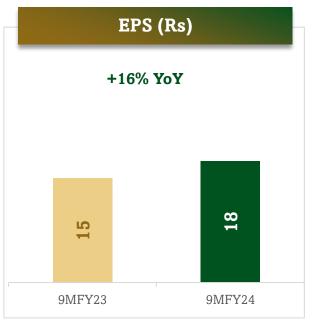

9M FY24 Highlights: Profits up, despite cyclone and export restrictions in H1

- ☐ Cyclone-led disruptions at Gujarat port in June and Government restrictions on Basmati rice exports below USD 1,200 per ton during September impacted revenue growth during 9M FY2024
- □ Despite this, EBITDA and PAT were up by 14% and 16% YoY respectively. EBITDA margins expanded by 228 bps YoY, while PAT margins expanded by 175 bps, supported by our efforts towards operational efficiency

Business Highlights

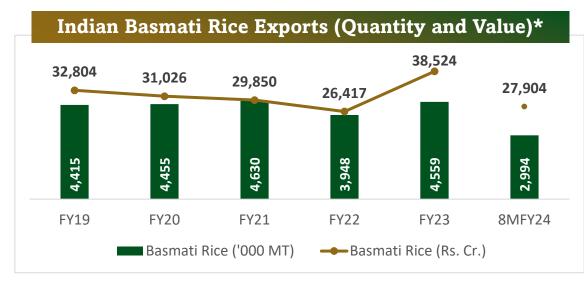

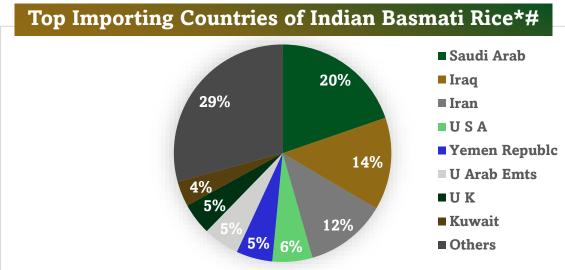

Key Highlights

- ☐ During the quarter, export volumes were up by 37% QoQ and 10% YoY at 39,444 MT
- ☐ Average export realization was up by 5% YoY during this period
- ☐ Asia Pacific, Middle East & Africa registered promising growth during the quarter
- ☐ Overall, top 5 countries contributed 66% of the export revenues during the quarter
- □ Brand revenues (Maharani, Mithas and Begum) comprised 12% of overall revenues and grew by a healthy 82% YoY during 9M FY24
- □ Value-added segment (Rice suitable for Diabetes & Brown Rice) grew by 167% YoY during 9M FY24
- ☐ Total inventory as of Dec'23 stood at Rs. 626 Cr

India's Basmati rice exports opportunity

Industry Highlights

- ☐ India is one of the largest producer of Basmati rice, with balance quantities from Pakistan
- ☐ Indian Basmati rice has got Geographic Indication (GI) recognition and thus, enjoys a strong dominance in exports (160+ countries), especially to Middle East
- ☐ In FY24 (Apr-Nov), Indian Basmati Rice exports stood at Rs. 27,904 Cr, registering a 23% YoY growth in value terms
- On 20th July 2023, GoI imposed a ban on non-basmati exports, which has resulted in an increased demand of basmati rice from India
- On August 27, 2023, Government of India imposed restrictions on exporting Basmati rice below USD 1,200 per ton to restrict possible "illegal" shipments of white non-basmati rice in the garb of premium Basmati rice. The Government has subsequently relaxed the minimum export price restriction to USD 950 per ton, which will favorably support basmati rice exporters

*Source: APEDA #Data as of November 2023

CLSEL is amongst the leading exporters of basmati rice from India

With over 4 decades of experience in Rice Exports, CLSEL is rightly poised to benefit from the export opportunity

Exporting since 1982; Established clientele provides repeat business

Robust Financial Performance over the years

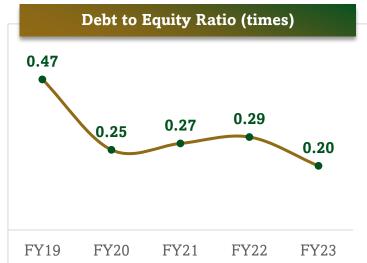

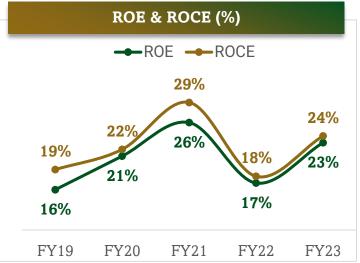

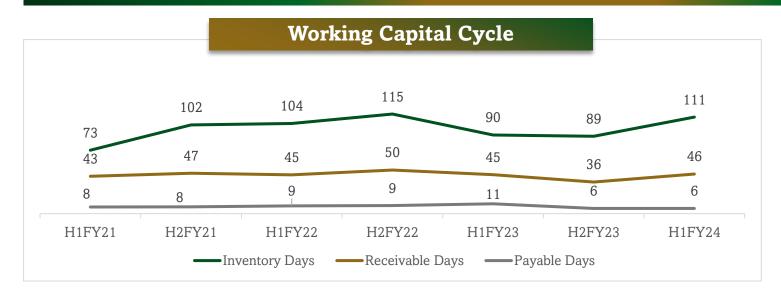

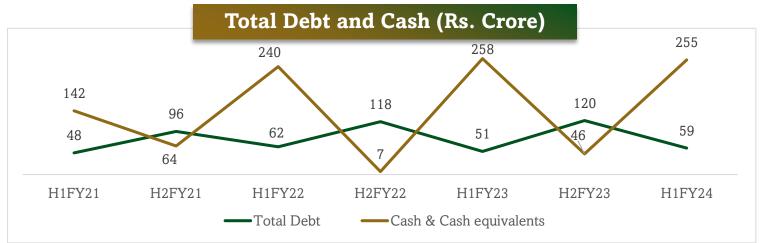

Prudent inventory management, leading to superior cash conversion cycle

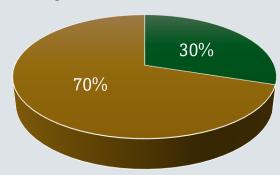

Procurement of Paddy starts in Oct-Nov, resulting in increased inventory levels

Asset Light model with lower inventory risk

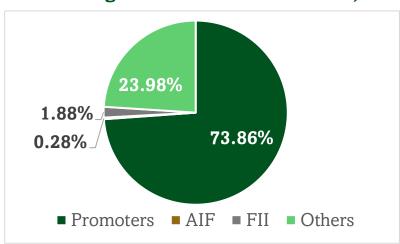

- ☐ Majority of the production is through procurement of semi-finished rice and conversion to finished rice (mostly requiring Sortex), keeping the overall processing cycle short, and the company remaining relatively asset light
- ☐ Inventory holding remains moderate as the company does not engage into ageing and thus, possess lower inventory risk
